

Vital Partnerships: New Models of Cooperative Ministries

Dirk Elliott

Director of
Congregational Vibrancy &
Leadership Development
Michigan Conference

Churches come in all forms of health: some are healthy and growing, others are maintaining the status quo, and some are declining. But they all have one thing in common – they want to be fruitful and healthy. One way this can happen is through partnerships or mergers. Attend this workshop and explore new ways your church might become healthier through a merger.
