

# STUDENT DESKS FROM BLEACHER WOOD

**Midwest Mission recycles indoor and outdoor school/stadium bleacher wood and crafts them into durable desks for children in developing countries.**

In fact, desk building was the first project of Midwest Mission before it was officially established.

Each desk seats 2-4 students. These desks are vital for creating a positive learning environment and have been sent to the Dominican Republic, Haiti, Guatemala, Belize, El Salvador, Panama, Liberia, Ghana, Jamaica and Kenya.

**Know of a school or church who would like to donate their bleacher wood?**

We can work with you on pick-up or delivery. The school/church must supply volunteers to assist in taking down the bleachers. Then, we will pick up the bleacher wood.
